#### Artist's Personal Statement

While I would never wish serious illness upon anyone, based on my own personal experience having survived cancer, I would wish everyone the opportunity to reevaluate their life before a personal crisis occurs. A time to reflect and take inventory on where they are in life...to re-focus on what is and what isn't important....to give spirituality more thought.. and ultimately to pursue those things they love in life. At the same time help to make the world a little better place in which to live by creating artwork that stirs the viewer. For me that has led me to paint the beauty I see in nature and urban scenes in cities for my Lotysz paintings and that I see early in the morning and late in the day on golf courses for my Lotus work.
